BRAND STORY

Meet the company behind some of the **world's most resilient** and refined quartz surfaces — PACIFIC.

With an expansive portfolio of precision-engineered prefabricated solutions tailored to exact project requirements, PACIFIC delivers scale without sacrificing sophistication. Each surface is manufactured using advanced Bretonstone® technology developed by Breton S.p.A. of Italy, within state-of-the-art production facilities engineered for consistency and performance.

Backed by decades of material expertise and design intelligence, PACIFIC curates collections that move effortlessly from timeless natural expressions to bold contemporary statements — from soft, nuanced grains and luminous whites to expressive veining and deep, architectural solids.

PACIFIC ITALIAN SURFACES

In India, PACIFIC partners with globally respected home and kitchen brands, leading retail chains, and premium European boutique studios. Our role extends beyond supply. We deliver fully fabricated, bespoke solutions supported by streamlined single-day installations. Precision prefabrication to micron-level tolerances minimizes on-site disruption, reduces debris, and optimizes material use with measurable efficiency.

Operating with a team of 960+ skilled professionals and an advanced manufacturing infrastructure capable of producing over 1 million square metres annually, PACIFIC is built to serve both boutique design studios and large-scale global projects with equal precision and reliability.

Composed of up to 93% quartz — one of nature's hardest minerals — PACIFIC surfaces are engineered for structural integrity and enduring beauty. Proprietary processes, including globally patented vibrocompression vacuum technology, produce exceptionally dense, non-porous slabs designed to resist stains, scratches, and the demands of daily use.

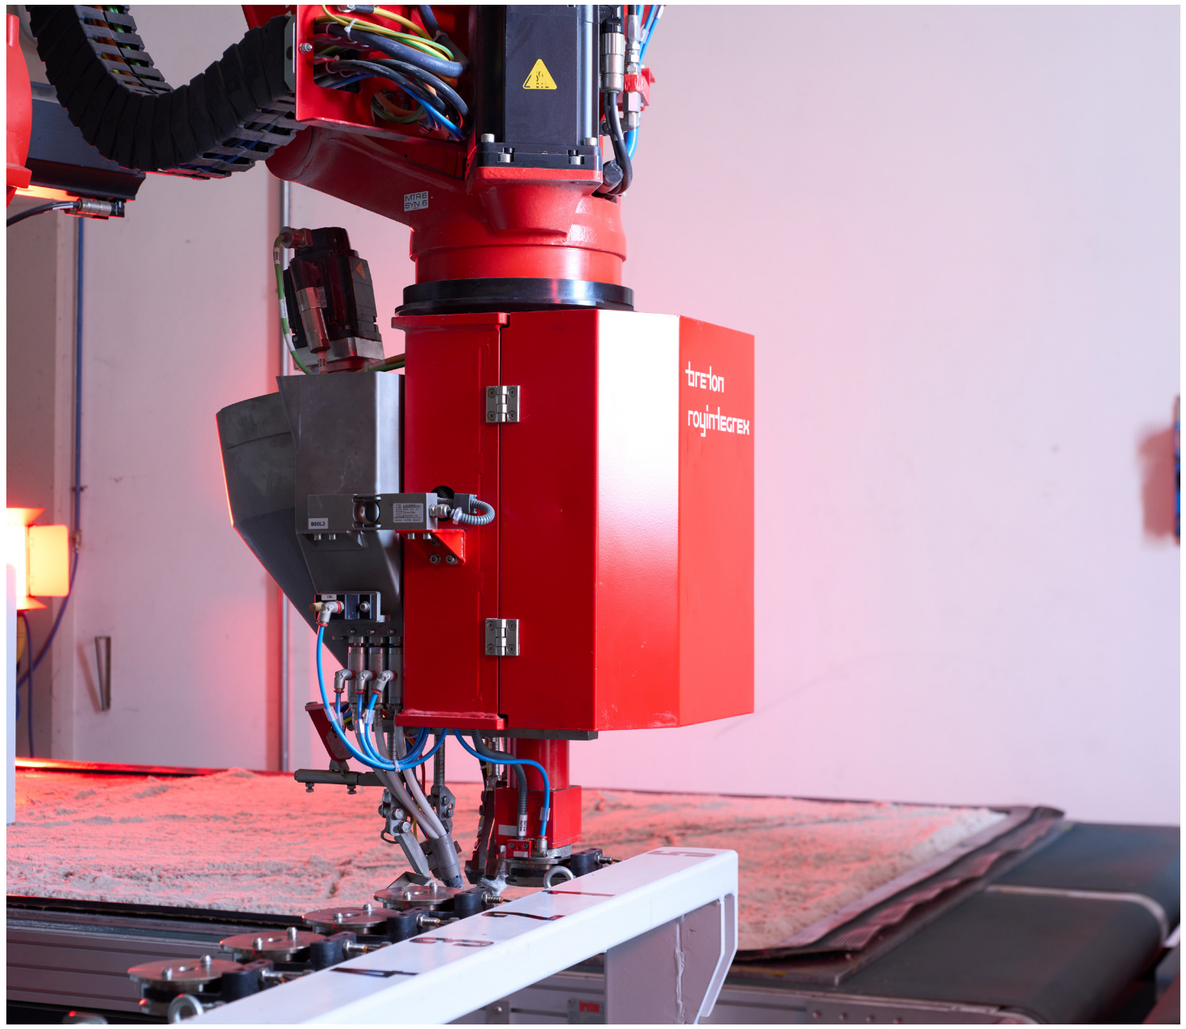

We utilize advanced processing technology and precision-engineered machinery to ensure exceptional quality and consistency. Every surface is crafted under strict manufacturing standards to deliver superior performance and finish.

PACIFIC ITALIAN SURFACES

Industry 4.0 Principles

Our manufacturing processes are driven by Industry 4.0 principles, integrating advanced digital technologies, machine learning, and real-time data monitoring. This intelligent ecosystem enables greater automation, improved efficiency, and precise control across every stage of production, ensuring consistent quality and faster decision-making.

Six Sigma Practice

We follow the Six Sigma methodology to maintain the highest standards of manufacturing excellence. By continuously analyzing processes, identifying root causes of defects, and reducing variability, we ensure consistent manufacturing excellence.

Technology & Innovation

Breton Robotic Manufacturing

Our production line is powered by Breton's Royintegrex robotic system — the same technology used by the world's most advanced stone manufacturers. These robots craft exotic designs with precision and consistency that manual processes simply cannot match.

High-Speed Production Line

With an annual capacity exceeding 1 million square metres, our factory meets the most demanding project timelines. Every slab undergoes rigorous quality inspection before leaving the facility.

Inlayer Technology

Breton's Inlayer technology infuses water-based ink up to 300 microns deep into the slab surface. Unlike surface-level printing, this creates full-body colour that survives polishing, edge detailing, and years of use. Anti-fingerprint coating and UV-Armour treatment are standard.

HOW TO READ THIS CATALOGUE

Each product page in this catalogue follows a consistent format. Here's what every element means:

Slab Size

All designs are manufactured in Super Jumbo format: 137 × 79 inches (347 × 201 cm). This is one of the largest slab formats available in engineered quartz, enabling seamless installations with minimal joints.

PACIFIC ITALIAN SURFACES

Thickness Options

12mm (KosmicLite): Ultra-lightweight, ideal for wall cladding, furniture, and applications where reduced weight matters. Available in Kosmic & Vision Series only.

20mm: The standard thickness for countertops, vanity tops, and most interior applications.

30mm: Premium thickness for high-end countertops, bar tops, and feature installations where visual mass matters.

Finishes

Polished

A high gloss, mirror like finish that reflects light beautifully while enhancing the richness of colour, depth, and intricate veining. Its smooth, luxurious surface creates a bright and elegant aesthetic, making it an ideal choice for kitchens, bathrooms, feature walls, and other sophisticated interior spaces.

Leather:

A refined, softly textured finish with a subtle matte appearance that brings warmth and character to every surface. The gentle texture highlights the natural movement and veining while reducing glare, creating a contemporary look that is both elegant and inviting. Ideal for spaces where understated luxury and tactile appeal are desired.

Vision Series utilises Breton Chromia digital inlayer printing technology. designed for HD, in-body infusion of slab surfaces. Using water-based inks that penetrate up to 300 microns deep, Vision Series transforms white mineral slabs into limitless natural stone, architectural, or creative designs.

The deep infusion ensures vibrant colour intensity even after polishing and edge detailing, creating a true full-body appearance. Anti-fingerprint properties and UV-Armour/X-Armour treatment provide enhanced resistance to UV and moisture for lasting clarity.

PACIFIC ITALIAN SURFACES

TAJ VEIN

An Icon that never goes unnoticed

PACIFIC ITALIAN SURFACES

NEBULA SERIES

Veined marble aesthetics with bold, sculptural patterns.

ALABASTER NOIR

Deep black with a web of fine white fractures that cut across the surface like lightning in a night sky. The veining is delicate enough to read as natural movement rather than pattern — understated drama at its best.

SERIES	CODE	THICKNESS	FINISH
Nebula	3003	20/30 mm	Polished, Leather

PALETTE

Jet black, white fracture veins

MOOD

Luxurious, moody, high-contrast

BEST FOR

Statement kitchen islands, executive boardroom tables, upscale bar counters

PACIFIC ITALIAN SURFACES

ARTEMIS

Cool white with an intricate scatter of olive-gold and gray veins that meander naturally across the slab. Artemis captures the look of rare Calacatta marble without the porosity or maintenance concerns.

SERIES	CODE	THICKNESS	FINISH
Nebula	3008	20/30 mm	Polished, Leather

PALETTE

Bright white, olive-gold, pale gray

MOOD

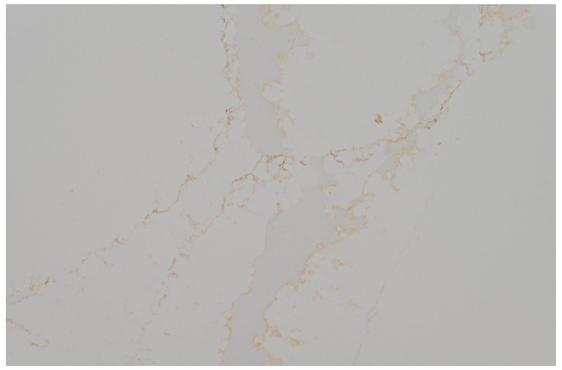

Classical, refined, gallery-worthy

BEST FOR

Bathroom feature walls, luxury vanity tops, hotel lobby cladding

ALABASTER NOIR

ARYA

Pristine white interrupted by long, singular veins in warm gray and faint gold. The veins travel in sweeping arcs rather than busy networks, giving Arya an open, spacious feel that makes rooms appear larger.

SERIES	CODE	THICKNESS	FINISH
Nebula	3009	20/30 mm	Polished, Leather

PALETTE	MOOD	BEST FOR
Pure white, warm gray, hint of gold	Minimalist, expansive, modern luxury	Large-format backsplashes, island waterfalls, walk-in shower walls

AUREATE

A whisper-soft beige base with faint rose and taupe veins that appear and disappear as light shifts across the surface. Aureate's subtlety makes it the ideal neutral for spaces where stone shouldn't compete with art or furnishings.

SERIES	CODE	THICKNESS	FINISH
Nebula	3015	20/30 mm	Polished, Leather

PALETTE	MOOD	BEST FOR
Soft beige, faint rose, taupe	Quiet, warm-neutral, Harmonising	Residential countertops, soft-toned bathroom vanities, gallery spaces

PACIFIC ITALIAN SURFACES

DEEP WAVE

Delicate silver-grey veining flows seamlessly across a luminous white base, forming fluid, wave-like patterns that evoke calm movement and contemporary grace.

SERIES	CODE	THICKNESS	FINISH
Nebula	3010	20/30 mm	Polished, Leather

PALETTE	MOOD	BEST FOR
Soft Silver · Cool Grey · Mist Ash	Calm, tailored, contemporary	Modern Residential Interiors Light-Tone Commercial Spaces

BELLAGIO

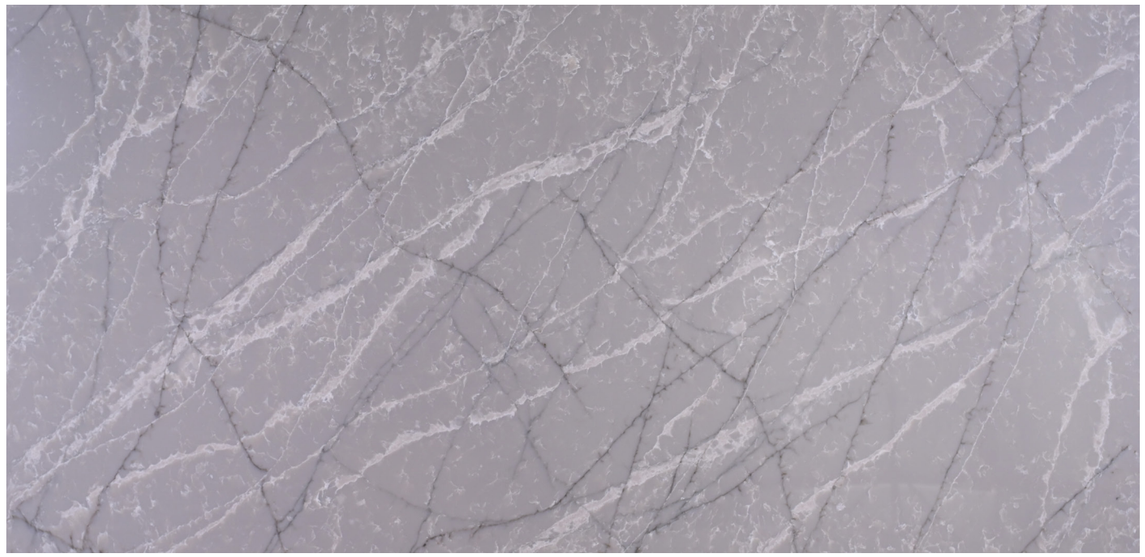

Bold gray-blue veins cascade through bright white in sweeping, dramatic strokes. Bellagio has the most movement of any design in the Nebula series — it reads as natural marble with the performance of engineered quartz

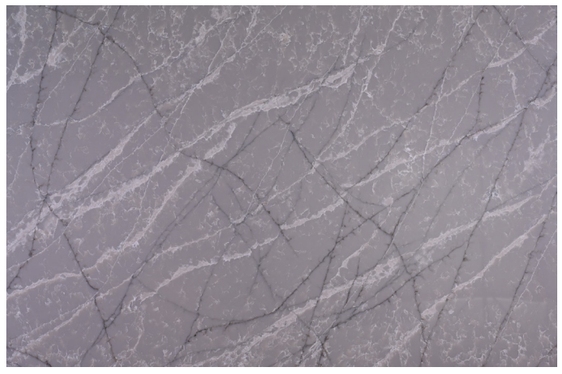

SERIES	CODE	THICKNESS	FINISH
Nebula	3017	20/30 mm	Polished, Leather

PALETTE	MOOD	BEST FOR
Bright white, steel blue, charcoal	Grand, opulent, European	Master bathroom floors, luxury kitchen islands, elevator lobby walls

PACIFIC ITALIAN SURFACES

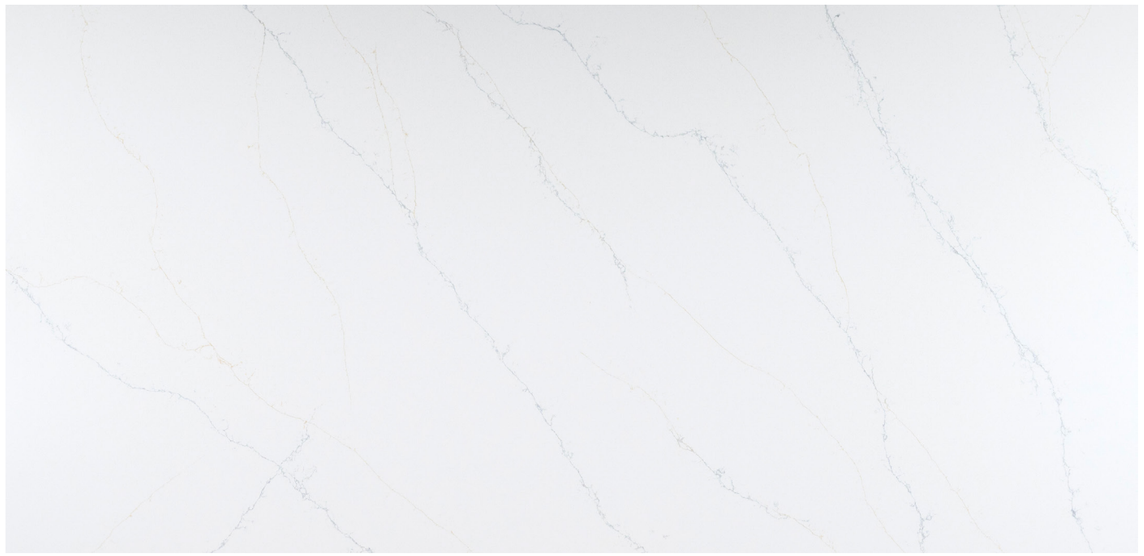

BOHEMIA

Illuminate your space with Bohemia from the Translucent Series: smoky lavender-gray quartz with dramatic charcoal veins, perfect for stunning backlit countertops and walls.

SERIES	CODE	THICKNESS	FINISH
Nebula	3019	20/30 mm	Polished, Leather

PALETTE	MOOD	BEST FOR
Lavender-gray, deep charcoal, white	Artistic, expressive, unconventional	Design studio surfaces, boutique hotel walls, modern dining features

PACIFIC ITALIAN SURFACES

CATERINA

Caterina features a soft white base with bold, flowing grey veining that moves naturally across the slab - bringing the drama of natural stone with the lifetime performance guarantee that only Pacific can offer.

SERIES	CODE	THICKNESS	FINISH
Nebula	3021	20/30 mm	Polished, Leather

PALETTE	MOOD	BEST FOR
Pure White, Soft Grey Veins, Cool Ash Undertones	Elegant, Refined, Contemporary	Kitchen Countertops, Waterfall Islands

COSTA

Warm white with meandering brown-gold veins that branch and converge like river tributaries on a topographic map. The veining is deliberate without being geometric — natural movement captured in engineered precision.

SERIES	CODE	THICKNESS	FINISH
Nebula	3025	20/30 mm	Polished, Leather

PALETTE

Warm white, brown-gold, faint honey

MOOD

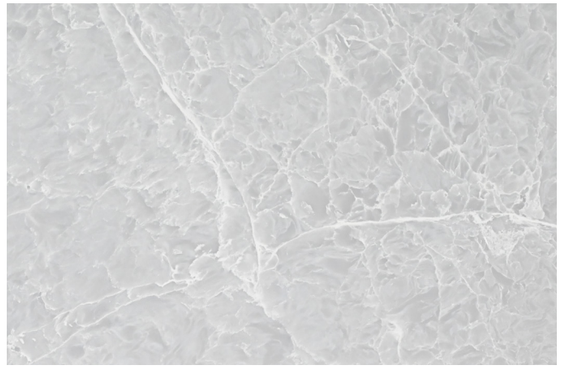

Mediterranean, warm, inviting

BEST FOR

Kitchen countertops, outdoor covered bars, coastal home interiors

PACIFIC ITALIAN SURFACES

GLACIAL SILVER

Pale silver with a clouded, translucent quality and veins that appear as though viewed through frosted glass. Under backlighting, Glacial Silver takes on an almost luminous glow — ideal for spaces that play with light.

SERIES	CODE	THICKNESS	FINISH
Nebula	3055	20/30 mm	Polished, Leather

PALETTE

Pale silver, cloud white, translucent

MOOD

Ethereal, luminous, icy elegance

BEST FOR

Hotel reception desks, backlit feature walls, lift lobby cladding

COSTA

HAZEL GOLD

Clean white with long diagonal veins in warm rose-brown that trace across the slab like calligraphy strokes. The simplicity is the strength: Hazel Gold lets each vein read as an intentional mark on a pristine canvas.

SERIES	CODE	THICKNESS	FINISH
Nebula	3039	20/30 mm	Polished, Leather

PALETTE
Clean white, rose-brown diagonals

MOOD
Calligraphic, precise, warm simplicity

BEST FOR
Bathroom countertops, kitchen backsplashes, light-filled interiors

PACIFIC ITALIAN SURFACES

HERMES

A complex, particulate surface in warm gray-beige with dark veins that meander through a field of visible mineral inclusions. Hermes has the closest resemblance to natural quartzite — tactile, geological, rich with visual texture.

SERIES	CODE	THICKNESS	FINISH
Nebula	3040	20/30 mm	Polished, Leather

PALETTE
Warm gray-beige, dark veins, minerals

MOOD
Natural, complex, textural depth

BEST FOR
Outdoor kitchen counters, rustic-modern interiors, statement tables

HONEYDEW

Cool blue-white with fine veins in warm gray that seem to float across the surface. The overall impression is of space and lightness — a surface that recedes rather than demands, making it perfect as a backdrop.

SERIES	CODE	THICKNESS	FINISH
Nebula	3041	20/30 mm	Polished, Leather

PALETTE

Blue-white, warm gray, gentle movement

MOOD

Spacious, fresh, quietly confident

BEST FOR

Large wall cladding, open-plan kitchens, commercial restrooms

PACIFIC ITALIAN SURFACES

CELESTIA SERIES

Subtle, refined surfaces with minimal veining and gentle tonal shifts.

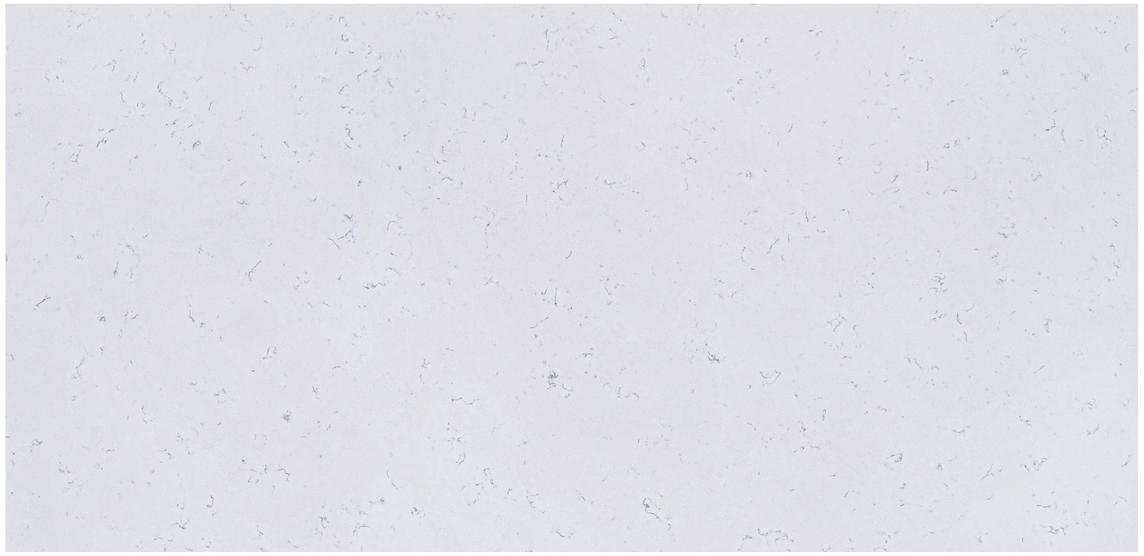

SEASONS

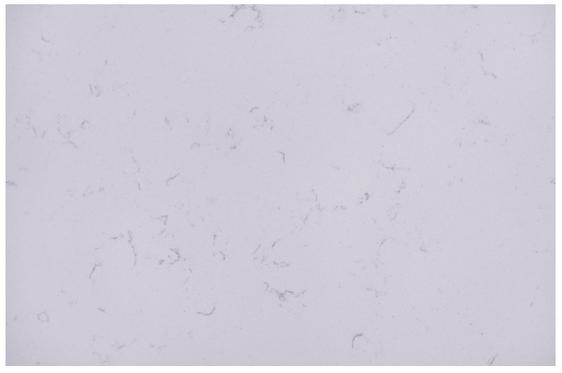

Soft white with a gentle blush of warmth and fine particulate detail that gives it a handmade, almost paper-like quality. Seasons works beautifully in spaces designed around simplicity and restraint.

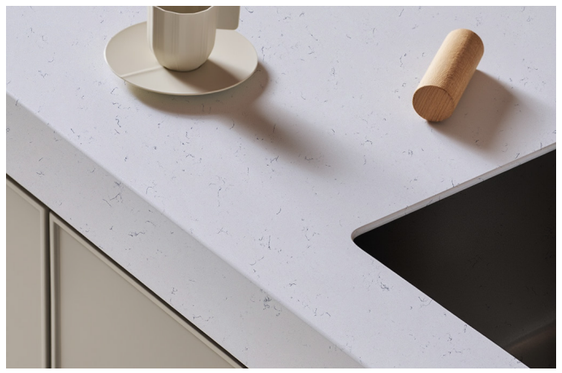

SERIES	CODE	THICKNESS	FINISH
Celestia	4005	20/30 mm	Polished, Leather

PALETTE	MOOD	BEST FOR
Soft white, warm undertone, fine particulate	Organic, gentle, considered	Tea rooms, minimalist kitchens, wellness spaces

PACIFIC ITALIAN SURFACES

SONEVA

Crisp white with the lightest scattering of gray veining that reads more as a texture than a pattern. Soneva is the cleanest surface in the catalogue — sophisticated without trying.

SERIES	CODE	THICKNESS	FINISH
Celestia	4001	20/30 mm	Polished, Leather

PALETTE	MOOD	BEST FOR
Crisp white, light gray veining	Serene, pristine, effortless	Luxury apartment kitchens, medical offices, showroom counters

STELLA

Off-white with scattered golden speckles that catch the light like mineral deposits in sandstone. Stella occupies the space between pure white and warm neutral — versatile enough for any palette but interesting enough to stand alone.

SERIES	CODE	THICKNESS	FINISH
Celestia	4002	20/30 mm	Polished, Leather

PALETTE	MOOD	BEST FOR
Off-white, golden speckles, warmth	Warm, shimmering, adaptable	Restaurant table tops, residential counters, bathroom vanities

PACIFIC ITALIAN SURFACES

Monochrome solids and fine speckles
for maximum versatility.

ARVA WHITE

Pure white with fine quartz grit that gives the surface a subtle crystalline texture under raking light. Arva White is the workhorse of the collection — clean, durable, and endlessly combinable.

SERIES	CODE	THICKNESS	FINISH
Aurora	1002	20/30 mm	Polished, Leather

PALETTE	MOOD	BEST FOR
Pure white, fine quartz grit	Clean, functional, bright	Commercial kitchens, laboratory surfaces, retail counters

PACIFIC ITALIAN SURFACES

CLASSIC GRAY

A consistent mid-gray with no veining and a smooth, uniform finish. Classic Gray provides the visual weight of stone without the distraction of pattern — the ideal complement to bold cabinetry or statement lighting.

SERIES	CODE	THICKNESS	FINISH
Aurora	1005	20/30 mm	Polished, Leather

PALETTE	MOOD	BEST FOR
Uniform mid-gray	Neutral, grounding, architectural	Modern kitchen counters, commercial reception desks, bathroom surrounds

DESERT SILK

Off-white with scattered golden speckles that catch the light like mineral deposits in sandstone. Stella occupies the space between pure white and warm neutral — versatile enough for any palette but interesting enough to stand alone.

SERIES	CODE	THICKNESS	FINISH
Aurora	4030	20/30 mm	Polished, Leather

PALETTE

Off-white, golden speckles, warmth

MOOD

Warm, shimmering, adaptable

BEST FOR

Restaurant table tops, residential counters, bathroom vanities

PACIFIC ITALIAN SURFACES

ECHO WHITE

Transform your space with this elegant quartz slab, featuring a delicate blend of soft, shimmering speckles that exude timeless sophistication. Perfect for adding a touch of refined luxury to any interior.

SERIES	CODE	THICKNESS	FINISH
Aurora	1001	20/30 mm	Polished, Leather

PALETTE

- Pure White
- Warm Ivory

MOOD

Cool, shimmering, adaptable

BEST FOR

Restaurant table tops, residential counters, bathroom vanities

SOLID SERIES

SUPER WHITE

Crisp and luminous, a surface that exudes sophistication and clarity.

SERIES	CODE	THICKNESS	FINISH
Solids	1009	20/30 mm	Polished, Leather

PALETTE	MOOD	BEST FOR
Bright white, warm shimmer speckles	Luminous, warm-bright, elegant simplicity	High-end residential kitchens, boutique retail, gallery installations

PACIFIC ITALIAN SURFACES

BRILLIANT WHITE

The brightest, most uniform white in the Pacific range. No veining, no visible particulate — pure reflective white. Super White maximises perceived room size and pairs seamlessly with any material palette.

SERIES	CODE	THICKNESS	FINISH
Solids	1003	20/30 mm	Polished, Leather

PALETTE	MOOD	BEST FOR
Pure bright white, no texture	Ultra-clean, expansive, clinical precision	Medical facilities, photography studios, minimalist kitchens

Monolith Quartz Vanity

A statement of permanence.

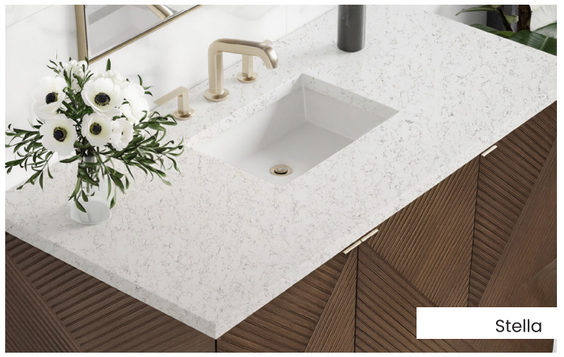

Every surface flows as one - top, basin, drawers, sides, and base - creating a seamless architectural presence that feels grounded, solid, and enduring. The integrated sink is precision CNC-cut directly from the quartz slab, delivering crisp geometry, flawless continuity, and a sense of permanence rarely seen in bathroom furniture.

A monolithic quartz vanity defined by clean lines, seamless surfaces, and understated elegance. Precision-crafted to bring architectural clarity and quiet luxury to contemporary bathrooms.

Global Standards, Local Precision

Exclusive Partnerships

We collaborate with select partners to develop signature surfaces for large-scale applications — proprietary finishes and patterns created to define brands, not just spaces. From boutique European kitchen studios to national hospitality chains, Pacific prefab delivers at scale without compromising craft.

Warranty

Every prefabricated Pacific surface is backed by a lifetime warranty for residential installations and extended coverage for commercial projects — a commitment to long-term performance, not just point-of-sale confidence.

We are not just manufacturing quartz. We are shaping enduring surfaces.

CERTIFICATIONS & COMPLIANCE

NSF Certified

Material suitable for food contact. NSF assures that a certified product, material, component or service complies with the technical requirements of the referenced standard.

ISO 9001

Certification based on the international standard for quality management systems.

Red List Free

A disclosure confirming our products do not contain banned substances that cause cancer, DNA damage, hormonal disruption, or environmental pollution.

Kosher Certified

We comply with a strict policy of kosher food laws, including cleanliness, purity, and quality.

TECHNICAL SPECIFICATIONS

Test Performed	Test Standards	Test Results
Absorption	EN-14617-1	<0.03%
Bulk Density	EN- 14617-1	2.15-2.46 g/cm3
Flexural Srength	EN-14617-2	31-75 N/mm2
Impact Strength	EN-14617-9	3.4 – 7.35 Joules
Thermal Expansion	EN-14617-11	$16*10^{-6}$ – 20.8 * 10^{-6}/°C
Abrasion Resistance	EN-14617-4	23.64-27.5mm
Freeze-Thaw Resistance	EN-14617-5	0.999
Mohs Hardness	EN – 101	6.5-7.5
Slip Resistance	ASTM C 1028-07	Coefficient of friction > 0.5*
Stain Resistance	ASTM C 1378-04	Not Affected
Wear and Cleanability	ASTM Z124 6.5.3	Pass
Cigarette Test	ASTM Z124 6.5.4	Pass
Surface Burning	ASTM E-84	Class A
Chemical Resistance	EN-14617-10	Class C4
Static Coefficient of Friction	ASTM C1028-07	Dry average- 0.68*
		Wet average- 0.5*
Flame Spread	ASTM E-84	FSI<10 for 3 cm and <15 for 2 cm

Weight Distribution

THICKNESS	WT.PER.SQ.FT	WT.PER SLAB
7 MM	1.4 KG/ Sq.Ft	105 KG
10 MM	2 KG/ Sq.Ft	150 KG
12 MM	2.4 KG/ Sq.Ft	180 KG
20 MM	4 KG/ Sq.Ft	300 KG
30 MM	6 KG/ Sq.Ft	450 KG

CARE & MAINTENANCE

Preserving Your Surface

Step 1: Apply neutral soap to the affected area and gently rub in a circular motion with a damp microfiber cloth.

Step 2: Leave to work for a couple of minutes. Then, with a wet cloth, wipe off any soap residue.

Step 3: Dry with soft cloth or paper towel.

PACIFIC ITALIAN SURFACES

A Surface Beyond Beauty

Crafted with advanced engineering and timeless aesthetics, Pacific surfaces are designed to perform as beautifully as they look.

Engineered Excellence

- Layered full-body integrated design
- Zero crystalline silica composition
- Superior heat resistance
- Precision manufacturing with advanced inlayer technology

Performance Without Compromise

- Non-porous and highly stain resistant
- Scratch and impact resistant
- Naturally antibacterial surface
- Built to withstand daily use for decades

Responsible Manufacturing

- Produced using up to 88% recycled materials
- Minimum 20% recycled content in every surface
- 99% water reused during production
- Powered by 100% renewable electric energy

Timeless Durability

- Distinct natural aesthetics in every design
- Long-lasting structural strength
- Resistant to cracking, scratching, and wear
- Beauty engineered to endure
