BRAND STORY

Meet the company behind some of the **world's most resilient** and refined quartz surfaces — PACIFIC.

With an expansive portfolio of precision-engineered prefabricated solutions tailored to exact project requirements, PACIFIC delivers scale without sacrificing sophistication. Each surface is manufactured using advanced Bretonstone® technology developed by Breton S.p.A. of Italy, within state-of-the-art production facilities engineered for consistency and performance.

Backed by decades of material expertise and design intelligence, PACIFIC curates collections that move effortlessly from timeless natural expressions to bold contemporary statements — from soft, nuanced grains and luminous whites to expressive veining and deep, architectural solids.

PACIFIC SURFACES

In India, PACIFIC partners with globally respected home and kitchen brands, leading retail chains, and premium European boutique studios. Our role extends beyond supply. We deliver fully fabricated, bespoke solutions supported by streamlined single-day installations. Precision prefabrication to micron-level tolerances minimizes on-site disruption, reduces debris, and optimizes material use with measurable efficiency.

Operating with a team of 960+ skilled professionals and an advanced manufacturing infrastructure capable of producing over 1 million square metres annually, PACIFIC is built to serve both boutique design studios and large-scale global projects with equal precision and reliability.

Composed of up to 93% quartz — one of nature's hardest minerals — PACIFIC surfaces are engineered for structural integrity and enduring beauty. Proprietary processes, including globally patented vibrocompression vacuum technology, produce exceptionally dense, non-porous slabs designed to resist stains, scratches, and the demands of daily use.

Mineral Infused Inlayered Printed Technology

The Eclipse Series represents the pinnacle of PACIFIC's design innovation, brought to life through our proprietary Breton's Inlayered Printed Technology. This advanced mineral infused printing process creates exceptional visual depth and authenticity by integrating specially formulated inorganic mineral inks with precision throughout the engineered surface. Unlike conventional surface printing, intricate veining, subtle movement, and natural tonal variations become an integral part of the design, delivering a remarkably true to stone appearance.

Each pattern is developed using carefully calibrated pigments that provide exceptional colour consistency, remarkable clarity, and enduring vibrancy. From luminous whites and soft natural textures to bold marble inspired expressions, every design is engineered to maintain its visual integrity across production while preserving the refined elegance expected of premium architectural surfaces. The result is a collection where colour is not simply applied, but thoughtfully engineered into the material itself, creating surfaces with extraordinary realism, lasting beauty, and exceptional visual continuity.

Almond Mist

Where understated refinement defines luxury living. Almond Mist (P10) is a quartz surface that brings together a serene white background with whisper- light grey and beige lines that mimic natural sediment patterns. Its understated detailing offers refined, handcrafted appeal that speaks to discerning homeowners and designers who understand that true luxury lies in subtlety and sophistication.

Suede

Cristallo Gold

Inspired by the artistry of nature, Cristallo Gold reveals a beautiful interplay of golden warmth and misty grey textures, traced by intricate veins that flow effortlessly across its surface. Refined yet expressive, it lends a distinctive charm to interiors, creating spaces that feel both luxurious and inviting.

Cristallo Gold

Cristallo Gold brings together the quiet beauty of soft ivory, warm gold, and delicate grey, woven with flowing veins of earthy brown. Its natural movement creates a sense of depth and timeless elegance, transforming every surface into a statement of understated luxury.

Finishes:

Polished
Suede

Dolce Vita

Dolce Vita captures the understated beauty of natural stone through its soothing shades of grey, soft cloudy textures, and delicate earthy veins. Its subtle variations create a sense of depth and quiet sophistication, bringing timeless elegance to spaces designed for effortless luxury.

Dolce Vita

With a graceful blend of cool grey tones and intricate natural patterns, Dolce Vita evokes a feeling of calm and refined simplicity. Its beautifully layered textures add character without overwhelming the space, creating an elegant foundation for interiors that feel warm, balanced, and enduring.

Finishes:

Polished
Suede

Elano

Where warmth embraces refinement. Elano (P03) is an exquisitely balanced quartz surface that masterfully combines soft, warm beige tones with sophisticated grey veining. This premium surface represents the perfect intersection of comfort and elegance, offering a versatile foundation that complements both traditional and contemporary design philosophies.

Elano

Elano’s gentle warmth and refined movement create spaces that feel both inviting and sophisticated. Ideal for family kitchens seeking understated luxury, elegant bathrooms, executive offices, and hospitality settings where comfort meets contemporary style.

Finishes:

Suede

Elvion

Elvion transforms interiors into sophisticated showcases of contemporary style. Perfect for luxury kitchens seeking dramatic focal points, high-end bathroom installations, boutique offices, and commercial spaces where designers want to make powerful design statements. The surface's commanding presence ensures it becomes the centerpiece of any room while maintaining impeccable performance standards.

Elvion

Where dramatic intensity meets modern sophistication. Elvion is a striking quartz surface that commands attention with its rich blue-grey color palette and bold, dynamic veining patterns. This premium surface represents contemporary design at its finest, offering statement-making elegance for spaces that embrace bold architectural vision.

Finishes:

Polished
Suede

Horizon Veil

Horizon Veil creates spaces of expansive contemporary serenity. Perfect for modern kitchens seeking sky-inspired focal points, serene bathrooms celebrating open aesthetics, wellness-focused spaces promoting calm, and residential areas where expansive visual inspiration matters. The surface's horizon patterns create visual expansion and serene movement.

Horizon Veil

Where expansive skies inspire contemporary surfaces. Horizon Veil is a quartz surface that showcases expansive blue and white tones with horizon-inspired patterns, evoking the vastness of open skies and limitless horizons. This premium surface brings expansive, serene elegance to contemporary spaces celebrating sky and horizon inspiration.

Finishes:
