A New Age in **Stone**

We are revolutionizing the stone industry with cutting-edge technology and innovative practices. As a leading stone company, PACIFIC is committed to pushing boundaries and delivering unparalleled quality and efficiency to our customers.

Revolutionizing **Mineral Surfaces**

At PACIFIC, we understand that you envision stunning and long-lasting kitchen worktops, stairs, floors, or wall coverings without getting lost in technical details. Our **mineral infused surfaces** offer **exceptional durability**, timeless beauty, and effortless maintenance. Experts, along with nature's own tests, ensure the quality you desire.

Integrating **Technology with Innovation**

Revolutionizing Design Possibilities & Commitment to Innovation

High-speed Production line

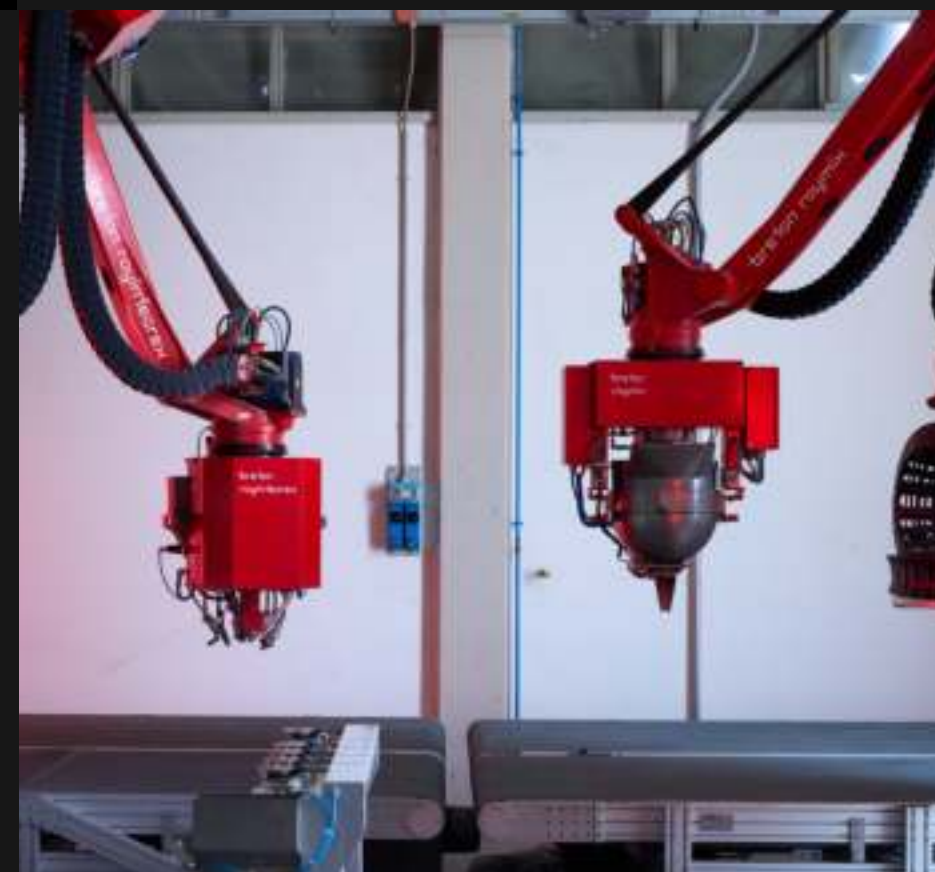

Production of over 10
million sqft per annum

The latest Quartz
technology in the World

Super Jumbo Slabs
(137 x 79 in or 348 x 201 cm)

Robots for crafting exotic
designs

A Sublime Creation from
Nature's Finest Essence

Top Natural Resources Which
Meet Strict Standards

High Quality Binding Agent

Automation

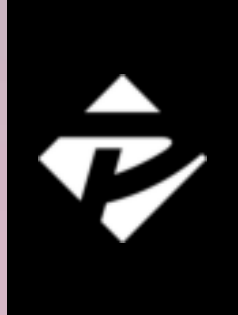

Robots to produce exotic, natural looking and studio design quartz slabs to ensure world-class quality with maximum speed and precision

Industry 4.0 Principles

Digitization at several levels integrated with technologies, machine learning and real time data

Six Sigma Practice

Identifying and removing the causes of defects and minimizing variability in manufacturing

Powered by

bretton

Sprawling
470,000 sqft.

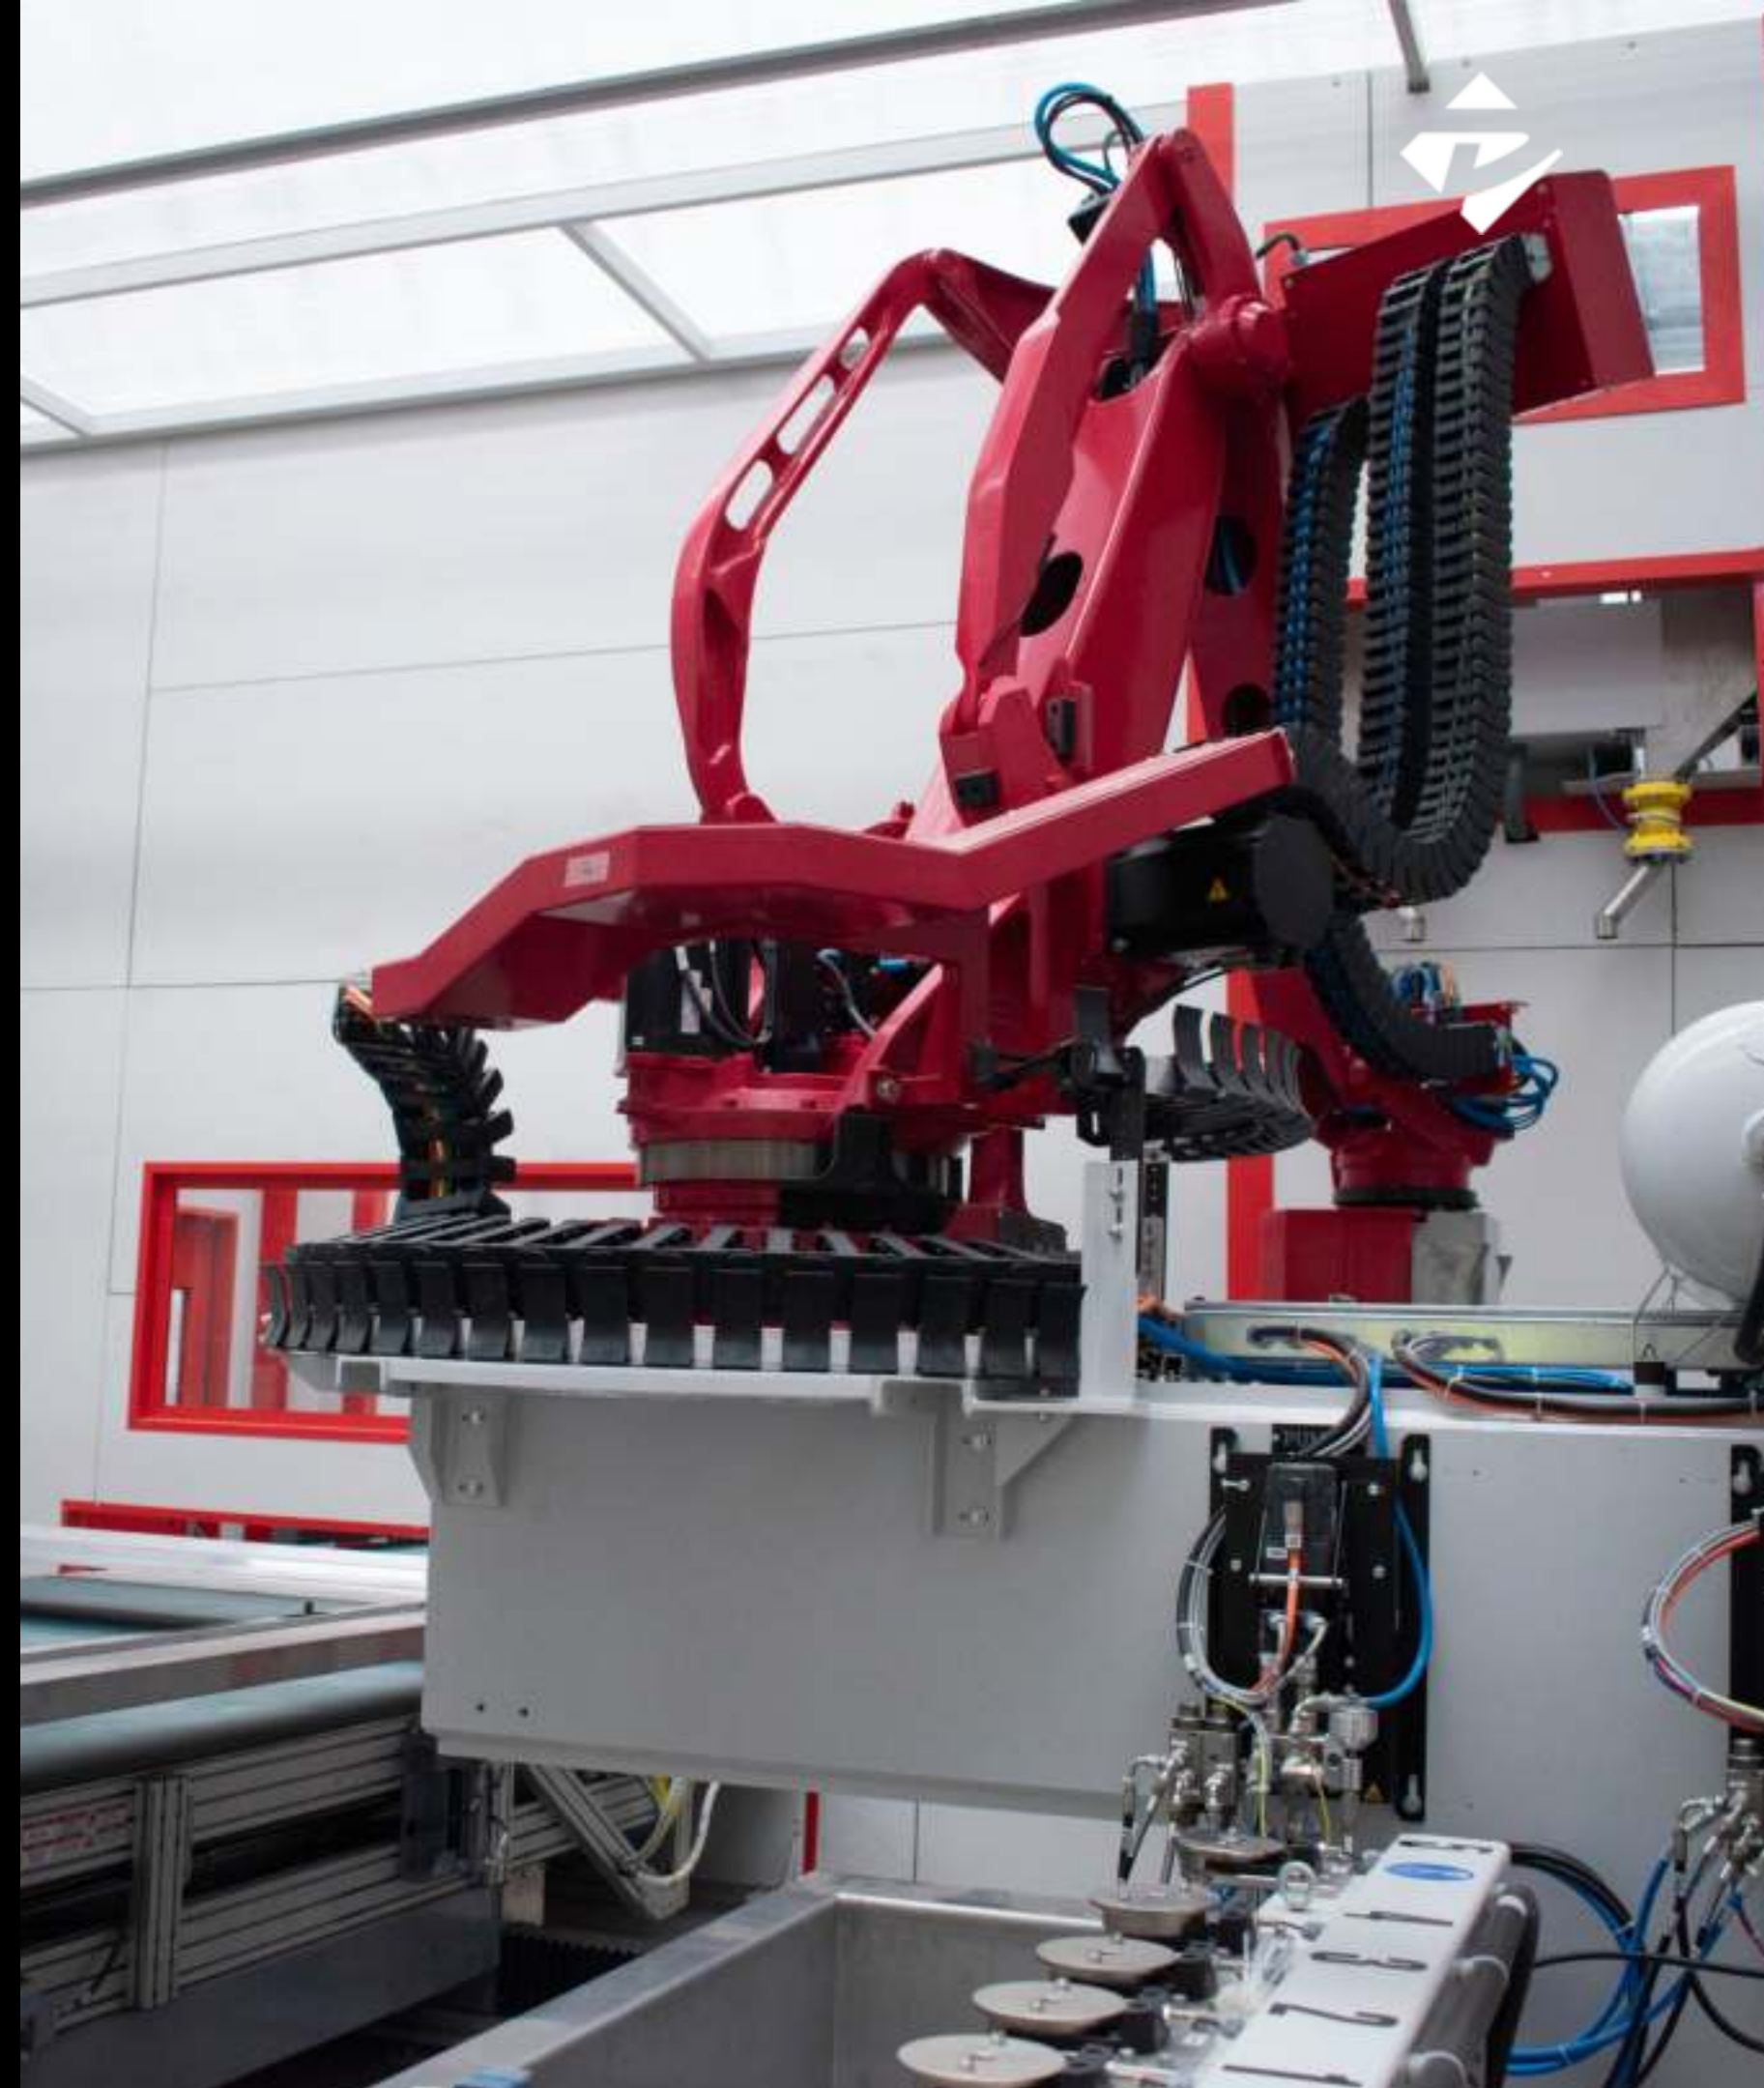

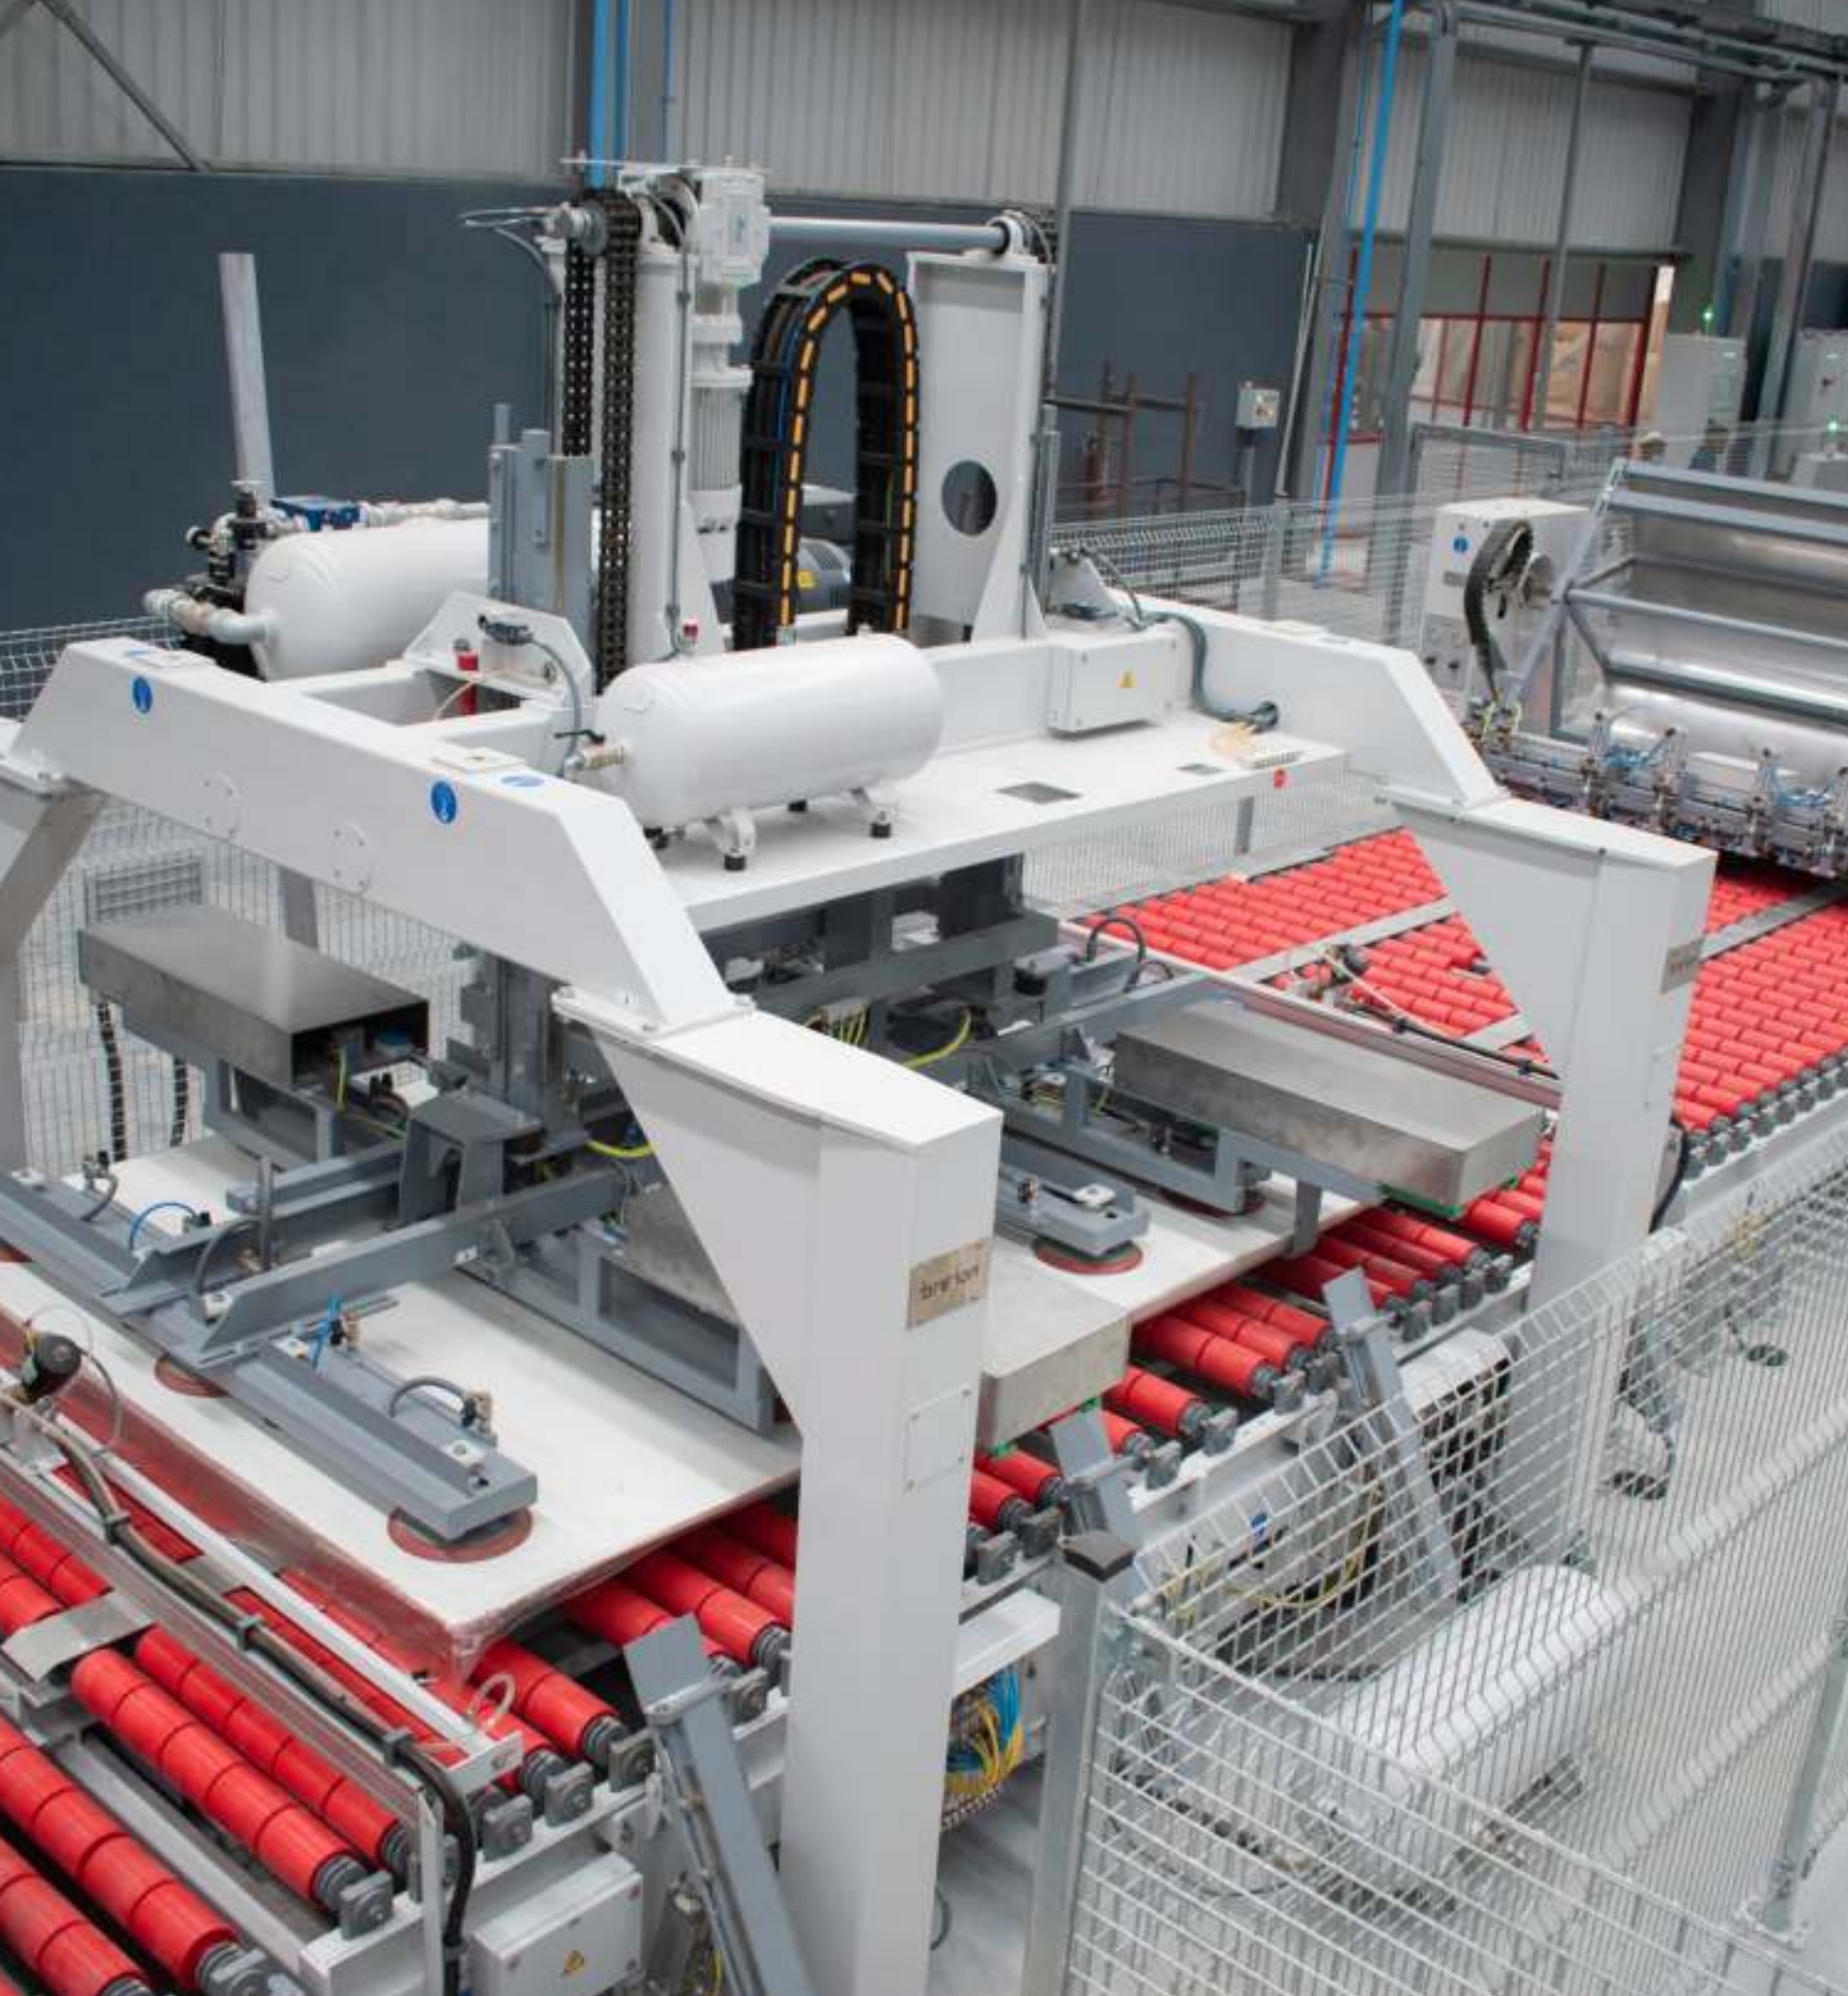

Integrating Technology with **Innovation**

At Pacific, we believe in the power of technology to enhance craftsmanship and redefine industry standards. Our new plant represents a fusion of advanced machinery and creative innovation, resulting in products that surpass expectations. We have invested in the latest manufacturing technologies to streamline processes, minimize waste, and optimize production output.

Robots for Crafting Exotic Designs

Unleashing the potential of automation, we have integrated robots into our production processes to **create intricate and exotic designs**. Our skilled craftsmen work alongside these robotic assistants, combining their expertise with the precision and efficiency of automation. This synergy between human craftsmanship and technological innovation enables us to craft breath-taking designs that captivate and inspire.

High-speed Production Line

With our high-speed production line, we have significantly accelerated the manufacturing process without compromising on quality. Our plant boasts an impressive capacity to meet the ever-growing demands of our clients, ensuring **timely delivery and superior craftsmanship**. From cutting to polishing, our automated systems guarantee precision and consistency in every slab.

Super Jumbo Slabs

Experience the grandeur of our super jumbo slabs, a testament to our commitment to excellence. With our advanced machinery and cutting-edge equipment, we can produce **large-format slabs that surpass traditional industry limitations**. These expansive slabs not only offer a **seamless** aesthetic appeal but also allow for a broader range of design possibilities, enabling architects and designers to bring their visionary concepts to life.

Extended **Beauty**

Our Quartz Palette is inspired from the vision of thinking big. The Super Jumbo size can embellish and adorn living and work spaces all around you.

Care & Maintenance

01. **Effortless** Cleaning

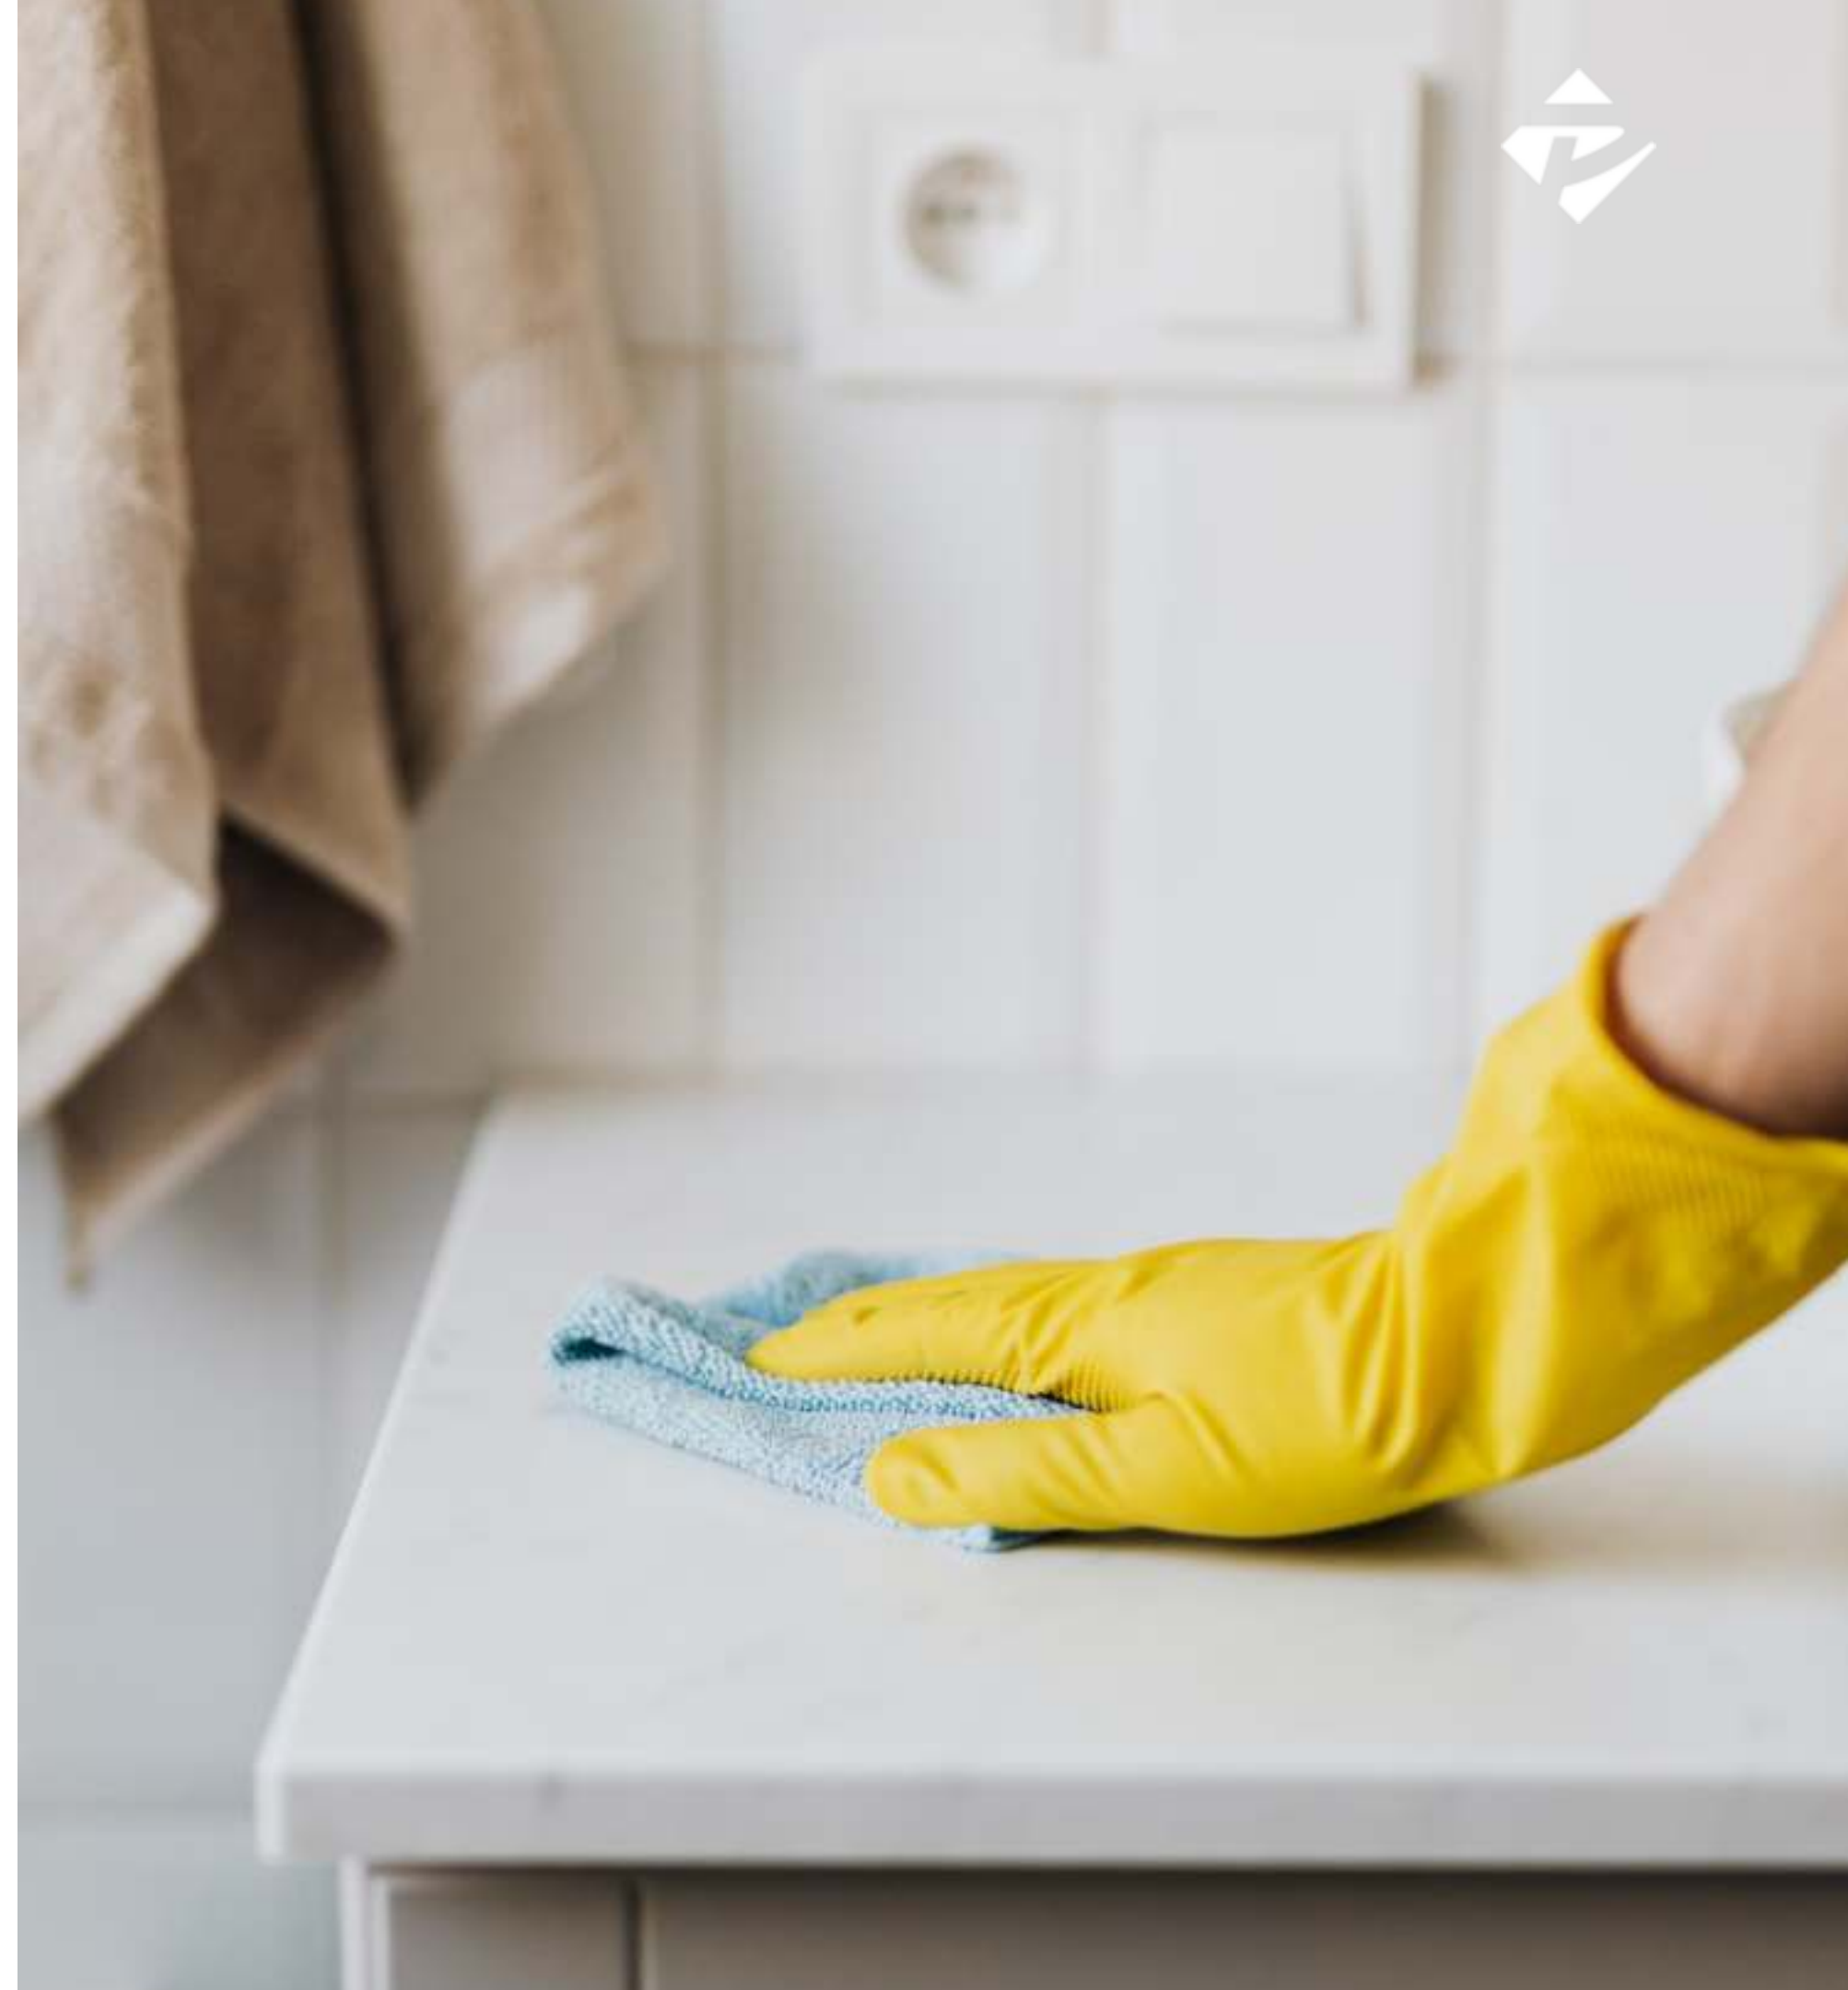

A simple cleanse with warm, soapy water is all it takes.

02. **Preventing** Patina

Swiftly wipe away any liquid spills or splashes to preserve the pristine appearance.

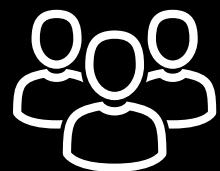

03. **Stain** Removal

Deal with stains by gently rubbing with an approved cleaner, followed by a thorough rinse.
